

Carry On

Kutless

There is strength in my weakness, That only comes from you
There is power in meekness, That i have found in you

Where else can i go, You know i'm weak
I know you're strong, you say when i'm broken
And can't carry on, Carry on

When all my strength is gone, you're still holding on
There is love for the lonely, that only comes from you

There is peace and forgiveness, That i have found in you
Where else can i go, You are the way
You are the light, You are the voice calling me through the night

You are holy and just full of mercy and love,
you are patient and kind, full of mercy and love
you're grace has opened my eyes
