

Never Ever

Belle Perez

Thinking of you all the time
Every second brings you closer
Hey now
I can't wait till we meet again
want to kiss and hold you tight
Knowing we can stay together
Hey now
Don't be late
On you I can dependNo one else can make me feel
The way I feel about you baby
Want to get up close to you
That's all that I needNever ever gonna get enough
I want your love to last forever
Never ever gonna give you up
I've known from the start
Never ever ever ain't long enough
We're strong enough to make it happen
Never gonna be without you now
You've captured my heartWhat I really feel inside
Doesn't take too much explaining
Hey now That's all right
'cause you understand
If I ever lose my way
I know you will always find me
Hey now
Show me how
Come and take my hand
