

Lawman

Girl Band

He said I used to be indecisive now I'm not sure-t
Is tucked into his smasual awkward pock-et
Ce tera instead of her I'm youngerI said I never really liked it til you said that
Please glass me if you ever think you've heard this
English people in a moody gay zooHe said
Everything about her was cunt-agious
Thats quite a nice little bit of word play
Everything about her was contagious
Then we decide to wake up
We decide to wake upHad about a fiver
Used to watch dream team
Had a couple goal posts
It hit the wood-ya tell me to stopCough topic comment
I used to begood looking
He starts every sentence with
I know Im not a racist butI saw another woman with my eyes closed
And we decide to wake up
And she decides to break off
I had about a fiver
Used to watch dream team
Had a couple goal posts
I hit the wood-ya tell me to stallI thought it would be better
if I could just strain this
I really like that track
I was feeling kinda sea sick
Well go ahead eat your water
Thought I was anonymous caller
I thought I was anonymous caller
I used to be good looking beside her
Eating chocolate cake like a vial-int-erest
-ing thing about your friends
They always seem to talk about my friends
I thought I was anonymous caller
I thought I was an anonymous callerEverything about her was contagious
Everything about her was contagious
Everything about her was contagious
Anything, I thought I should caller
I thought I was an anonymous caller
I used to be good looking beside her

I thought I was anonymous caller
