

# Purexed

## P.O.S.

[P.O.S.]

I'm trying not to slip, been trying not to lose footing  
Loose land keeps that pressure on my kicks  
But when I fall I tend to land like a ton of bricks  
Stand like a man made of concrete and sediment  
Like fuck your skin, nobody needs it  
There's bones, muscle and blood, what's realer than fat and tendons?  
It's raw, no soft tissue to draw your eyes to it  
So far flesh ain't the truest at all, let's rip into it  
We all sick of the missed shots  
Passed over like the last man picked, no team, so pissed off  
That's not honesty, that's just soft curves  
Got your world flipped, got you making mixtapes for girls  
And that's the skin again, let's blame the skin again  
Stretching itself so fluidly over these awkward ligaments  
And I didn't shave today, I probably won't tomorrow  
When it's safe to say I'm never gonna shed these extra... yeah so

[Chorus 1]

Fuck it, back to the wall  
Crush it, laugh at 'em all  
Hush, let 'em try to find the beauty in your face  
Yeah, something more than a song  
Hating? Aww come on  
Dust, let 'em try to find the beauty in the bass line

[Chorus 2] {2X}

Aww, but when the words don't change  
We don't sing with what will fade away  
Yeah, we do our own damn thing  
We don't blink at what tomorrow might bring at all

[P.O.S.]

In us we trust, no rush for bucks  
No sweat, just enough, them words from love  
No hits, I let the track stand  
Like how it was written is how it hit me  
or road cycle kids with the grip to skid fixies  
A rogue wild kid with a stroll that let it roll like whatever

Huh... they kick that gingivitis, them rappers got the itis  
Catch me bumping Isis in a crisis  
Instead of watching y'all count and lead sheep at the same time  
What's the science of that?  
I know that [shit] is sweet, but where the movement is at?  
We in that coma capital, spotless home team  
with hands steadily purexed but never quite clean  
Bloody as hell, rarely will I care... for that haha  
I don't know man... me and Joe like real shit

[Chorus 1]

[Chorus 2]

[Chorus 1]

[Chorus 2]

---
