Your Worst Fear

Cady Groves

oh, it's so sad watching you fall
you told yourself what you wanted to hear
it's a shame you had it all
but decided to light it, and watch it burn
and these piles of honesty will be kept warm with your regrets
don't be your worst fear
you can make it if you wanna get out of here
don't be your worst fear
you can make it if you wanna get out of here
get out of here
you're not trying to hide it anymore, anymore
no
you know you're not even fighting
so what am I fighting for? anymore

these piles of honesty will be kept warm with your regrets
don't be your worst fear
you can make it if you wanna get out of here
dont be your worst fear
you can make it if you wanna get out of here
and I mean at this point, I dont even want to know. whoa.
and I mean at this point, making ammends is not what im here for
don't be your worst fear
you can make it if you wanna get out of here
dont be your worst fear
you can make it if you wanna get out of here
don't be your worst fear
you can make it if you wanna get out of here
don't be your worst fear
you can make it if you wanna get out of here
