

Live for Violence

Voivod

Armed with a knife in hand
Drink it, drink all
This is my law
Flowing blood on the end
Gaining force casting spell
Depends on action in agony
Brought up in hell
Enduring deathAahhh! Never die young
Fight for my sound
Ooohh! Betrayers keep out
Of my sight
Live for violenceYes I live for violence
In the midst of attack
Warrior we fight
Like a savage in a cage
See it, see me
For my self preservation
I keep my distance
Dead line to meet
Beholder I'm in pain
Cold blooded warManipulating all
Battle controls
The Violence is loose
