

# The Outsider [Frosted Yogurt Mix]

## A Perfect Circle

Help me if you can  
It's just that this  
Is not the way I'm wired  
So could you please  
Help me understand why  
You're given in to all these  
Wreckless dark desires you're

Talking to yourself again  
Suicidal imbecile  
Think about it  
you're pounding on a fault line  
What'll it take to get through to you precious  
Knowing this  
Why you wanna throw it away like this  
Such a mess  
why would I wanna watch you

Dis-con-nect and self district  
one bullet at a time  
What's your rush now  
everyone will have his day to die

Medicated drama queen  
Picture perfect numb beligerance  
Narcissistic drama queen  
Craving fame and all its decadence

Lying through your teeth again  
Suicidal imbecile  
think about it  
you're pounding on a fault line  
what'll it take to get through to you precious  
Knowing this  
why you wanna throw it away like this  
such a mess  
why would I wanna watch you  
Dis-con-nect and self distruct one bullet at a time  
What's your rush now

everyone will have his day to die

They were right about you...

They were right about you...

Lying to my face again

Suicidal imbecile

Think about it

you're pounding on a fault line

What'll it take to get through to you precious

Knowing this

Why you wanna throw it away like this

Such a mess, over this, over this!

Dis-con-nect and self distrust one bullet at a time

What's your hurry everyone will have his day to die

If you choose to pull the trigger

Should your drama prove sincere

Do it somewhere far away from here!
