

Calm Your Eyes

The Away Days

Just calm your eyes
It's from your feelings
Calm your eyes
I wonder where your love has gone
I wonder where your heart has gone All these feelings you've followed
It's all gone Hear your love, it won't be alone
Your lies will heat the sun
He'll ride alone Lean,
It's all that we could follow
It's all that we would follow
It's all that we will come and see
