

Twinkle, Twinkle Lucky Star

The Astronauts

Twinkle, twinkle lucky star
Can you send me luck from where you are?
Can you make a rainbow shine that far?
Twinkle, twinkle lucky star
Can you really make a wish come true?
Do you shine on just a chosen few?
Is it over? Have I gone too far?
Twinkle, twinkle lucky star
Like two ships on the ocean, we drifted apart
And you found an island at sea
I'm still driftin' with this pain in my heart
Won't you send her sweet love back to me?
Twinkle, twinkle lucky star
Can you send me luck from where you are?

Can you make a rainbow shine that far?
Twinkle, twinkle lucky star
Twinkle, twinkle lucky star
Twinkle, twinkle lucky star
Like two ships on the ocean, we drifted apart
And you found an island at sea
Now I'm still driftin' with this pain in my heart
Won't you send her sweet love back to me?
Twinkle, twinkle lucky star
Can you send me luck from where you are?
Can you make a rainbow shine that far?
Twinkle, twinkle lucky star
