

# That's What It Takes

George Harrison

And now it begins to shine  
And you found the eyes to see  
Each little drop at dawn of every day  
Your smile, it comes back to me  
And whatever you may say  
Don't let it stop, never fade away  
As we got to get out in this world together  
Doesn't really matter if we start to make some changes  
If that's what it takes  
(That's what it takes)  
Then I've got to be strong  
(That's what it takes)  
Don't want to be wrong  
If that's what it takes  
The closer I get  
(That's what it takes)  
Into that open door  
(What it takes)  
I've got to be sure  
If that's what it takes  
And now that it's shining through  
And you can see all this world  
Don't let it stop, never fade away  
If we got to be in this life forever  
Then we'd better be taking all the chances  
If that's what it takes  
(That's what it takes)  
Then I've got to be strong  
(That's what it takes)  
Don't want to be wrong  
If that's what it takes  
The closer I get  
(That's what it takes)  
Into that open door  
(What it takes)  
I've got to be sure  
If that's what it takes  
That's what it takes, that's what it takes  
That's what it takes, that's what it takes  
What it takes, that's what it takes  
That's what it takes, what it takes  
That's what it takes  
That's what it takes  
That's what it takes

...
