Coming On

Killing Heidi

Feels like tonight I'm running in my head,
nothing to hold me here.
I can't get rid of all the words they said.
Yeah they're ringing in my ears.
Why do you pull away?
I see you running, hiding from the sun and again,
I can hear them saying I?
I feel the night it's coming on.
I feel the night it's coming on.
I feel the night it's coming on.
It's coming, it's coming.
When you're sick of running away.
An' your tired an' you don't wanna play anymore.
Are you scared it's all in your head?
Ignore what they said.
Running on back 'cause you know, you know.
Feels like tonight I'm thrashing in my bed,
An' I'm looking for truth.
It feels like life is a means to an end,
In another day or two.
Why do you pull away?
I see you running, hiding from the sun and again,
I can hear them saying I?
I feel the night it's coming on.
I feel the night it's coming on.
I feel the night it's coming on.
It's coming, it's coming.
When you're sick of running away.
An' your tired an' you don't wanna play anymore.
Are you scared it's all in your head?
Ignore what they said.
Running in on back 'cause you know.
When you're sick of running away.

An' your tired an' you don't wanna play anymore.
Are you scared it's all in your head?
Ignore what they said.
Running in on back 'cause you know.
Not letting go, letting go, letting go.

No, I'm not anymore, not anymore, anymore.
Not letting go, letting go, letting go.
No, I'm not anymore, not anymore, anymore.
Feels like tonight I'm running in my head,
nothing to hold me here.
I can't get rid of all the words they said.
Yeah they're ringing in my ears.
When you're sick of running away.
An' your tired an' you don't wanna play anymore.
Are you scared it's all in your head?
Ignore what they said.
Running in on back 'cause you know.
When you're sick of running away.
An' your tired an' you don't wanna play anymore.
Are you scared it's all in your head?
Ignore what they said.
Running in on back 'cause you know.
When you're sick of running away.
An' your tired an' you don't wanna play anymore.
Are you scared it's all in your head?
Ignore what they said.
Running in on back 'cause you know.
When you're sick of running away.
An' your tired an' you don't wanna play anymore.
Are you scared it's all in your head?
Ignore what they said.
Running in on back 'cause you know.
