Haunt Me

Kota Wade

I feel you in my blood
Deep down under my skin
You fill me with your love
You make me wanna sin

I never knew someone
Could do me like you do
And when it's said and done
We've got a love that isn't true

And I howl at the moon when I think of you
Every little thing that you put me through
I think you got me tied up in your voodoo

Love me, love me, love me
'Cause I'm under your spell
Haunt me, haunt me, haunt me,
You're puttin' me through Hell

I see you in my dreams
You're in my mind each night
You're never who you seem
I look for you in candlelight

But you're never really there when I close my eyes
Just another ghost making my demise
I wish that I could hold you close and feel your cries

Love me, love me, love me
'Cause I'm under your spell
Haunt me, haunt me, haunt me,
You're puttin' me through Hell

I don't know who I am
When I wake up you're standing over my bed
You're in my head
I know something is wrong
I get weak, you get strong
I'm hanging by a thread

Soon I will be dead

Love me, love me, love me
'Cause I'm under your spell
Haunt me, haunt me, haunt me,
You're puttin' me through Hell

Love me, love me, love me
'Cause I'm under your spell
Haunt me, haunt me, haunt me,
You're puttin' me through Hell

Love me, love me, love me
Haunt me, haunt me, haunt me

Love me, love me, love me
'Cause I'm under your spell...
