The Great Escape

Bisons

I'll use a lock that has no key
Aren't you in chains
That no one else can see?
Let the water creep over your face
I'll send it in waves
Just to watch you perform the great escape
How long can you hold your breath?
While you hold mine again and wait
Just to watch you perform the great escape
I'll pull your arms tight behind you back
Use myself as weight
And wonder while you fade
How long can you hold your breath?
While you hold mine again and wait
Just to watch you perform the great escape
