

Aurora Bori Alice

Cotton Mather

Alice, can you hear me?
Tonight the sky's not clearing
You'll never see Cassiopeia
You're there at your department
I'm here in your apartment
Another night I'll spend alone
A girl, her telescope
And the great unknown
Alice in ugly weather
You said we'd be together
And not afraid to let it show
The Pleiades behind her
Orion should remind her
Of summer boy she's got at home
She loves her telescope
More than I'd known, oh Aurora Bori Alice
Do you think there's someone
Out in space for you?
I want to be the man
To change your point of view
