Bitterness Rising

Paul Weller

Unfit to live in - just about fit to burst
Like the banks of a swollen river
As bitterness does its worst
Working on your feelings - eating you all up
But you have to shake that shit to move on
An' let love carry you on up(It's just) bitterness rising - taking you off
Bitterness rising - you gotta shake those feelings offUnfair to give in - and never changes course
If you have the choice before you
You must take it with a forceOr the past will take you - keep you from the truth
As bitterness rises - from the ashes of your youth(It's just) bitterness rising - taking you off
Bitterness rising - you gotta shake those feelings offMoments in time
Finding the space
To be what'cha wanna be
The things you never got
Life you never had
The dreams that you once dreamedWaiting your time - finding the space
To be what'cha wanna be
Well, just beOr the past will take you - keep you from the truth
As bitterness rises - from the ashes of your youth(It's just) bitterness rising - taking you off
Bitterness rising - you gotta shake those feelings off
