Boombox

Laura Marano

Press play on the day that you came into my life, yeah
Built our eyes on the night
It was strange, it was paradise, oh'Cause when I look back on it, life like the sonic
A quiet kinda solitude
Tell me how'd you do it, you added the music
I've never heard a song like you'Cause you're my boombox, baby
You can say anything
Blow my speakers out with you
Yeah, you're my boombox, baby
You can sing anything, and Imma sing along with you
And if I push the right button, will you show me somethin'?
Little melody that I can groove to, cruise
And with my boombox, baby
You can say anything
Blow my speakers out with you
Yeah, you're my boom-boom-boombox, babyPress pause just because all I want is to stay right here
I want you to spin me 'round, right 'round
Right 'round till we disappear, yeah'Cause when I look back on it, life like the sonic
A quiet kinda solitude
Tell me how'd you do it, you added the music
I've never heard a song like you'Cause you're my boombox, baby
You can say anything
Blow my speakers out with you
Yeah, you're my boombox, baby
You can sing anything, and Imma sing along with you
And if I push the right button, will you show me somethin'?
Little melody that I can groove to, cruise
And with my boombox, baby
You can say anything
Blow my speakers out with you
Yeah you're my boom-boom-boombox, babyYou make me wanna move my feet
Shake, shake my hips, making brand new moves to you
You make me wanna move my feet
Shake, shake, my hips, making brand new moves to you'Cause you're my boombox, baby
You can say anything
Blow my speakers out with you (blow my speakers out)
Yeah, you're my boombox, baby
You can sing anything, and Imma sing along with you (Imma sing along)
And if I push the right button (push the right button)

Will you show me somethin'? (will you show me somethin'?)
Little melody that I can groove to, cruise
And with my boombox, baby
You can say anything
Blow my speakers out with you
Yeah, you're my boom-boom-boombox, baby
