Fences and Barriers

Incognito

Whilst others wait and wait and wait
We glide into this jamYoure stirin up a revolution in my mind
The closer I get to you baby
You open up the windows of my soul
You do something to me that I never thought possible(Fences and barriers)
All seem to disappear when you are near, theyre gone
(Gone are the seeds of doubt)
Theyre no longer here when you appear(Fences and barriers)
No more, no more, no more
(Fences and barriers)
Gone, gone, gone
(Fences and barriers)
Theyre all gone babyYour caresses speak, they tell a tale
Of a journey to love
Boy youre blowin my mind like a hurricane
Youre the turnin tide and this love cannot hide(Fences and barriers)
All seem to disappear when you are near
(Gone are the seeds of doubt)
Theyre no longer here when you appear
Theyre long gone baby(Fences and barriers)
No more, no more, no more
(Fences and barriers)
Theyre gone, gone, gone
(Fences and barriers)
No more, no more, no moreThere is nothing in this world
That gets to me like you do
The way you do the things you do
(Oh, oh, oh)
No, nothing in this universe
(Nothing, nothing, nothing, ooh)
That compares to you(Fences and barriers)
No more, no more, no more
(Fences and barriers)
Ooh
(Fences and barriers)
No more baby, no more, no more
