

Just One Night

Ric Sandler

Every time I see you walking by,
how I wonder
What it's like to have you by my side?
Can't you understand
That I need you?
How can I get through
You don't even know that I'm alive.

Gimme just one night to hold you
'til the morning light, to show you
how strong a love song can be.

Late at night I'm lying in my room
Dreaming of you
Fantasizing you'd be with me soon
(Cuz I'd love to)
Share the nigh with you
make my dreams come true!
Save your love especially for me

Give me just one night to hold you
'Til the morning light to show you
How good love can be! Say you'll stay with me!
Gimme just one night!

(Gimme, gimme just one night)
(Gimme, gimme just one night)

Paradise for two, is waiting here for you
All you gotta do is say the word!

Gimme just one night to hold you
'til the morning light, to show you
how strong a love song can be.
(Gimme just one night)
I wanna hold you!
(til the morning light!)
To show you
How strong our love song can be

(Gimme just one night)
