Hey

A

Hang on, don't be frightened
Hold on, keep the light on
You call me anytime you want to
Keep a night in summer
Don't cry when its over
You take me anywhere you need to
Like it's your birthday
Like on your first date
Hey! You're gonna make it in your own way!
You're gonna make it in your own way!
Hey! You gotta make it in your own way!
Or you're gonna fall
Come on, getting violent
Be strong, and don't be frightened
That's crazy talk where out from hold you lost this
Go where the weather takes you
Don't care, they'll never break you
Love is all we needed in the first place
Like it's your birthday
Like on your first date
Hey! You're gonna make it in your own way!
You're gonna make it in your own way!
Hey! You gotta make it in your own way!

Or you're gonna fall
Hey! You gotta make it in your own way!
Hey! You gotta make it in your own way!
Hey! You gotta make it in your own way!
Or don't make it at all
Days will never feel the same
I get your tears, I feel your pain
I know two people that think the same
I'm giving you your own way
Like it's your birthday
Like on your first date
Like it's your birthday
Like on your first date
Hey! You gotta make it in your own way!
You gotta make it in your own way!

Hey! You gotta make it in your own way!
Or you're gonna fall
Hey! You're gonna make it in your own way!
Hey! You're gonna make it in your own way!
Hey! You're gonna make it in your own way!
Or don't make it at all
