

Undertow

State of Mine

Come rescue me
From the tides we swim against
Come rescue me

And tell me my friend
Are you swimming on the shores of a golden sea
Come rescue me
Come rescue me
Was it worth it in the end

Come rescue me

Are you choking once again
Was it worth it in the end
Was it worth it in the end

You are boiling down inside
For the last time

Please take my hand
Building castles in the sand
Look through my past

To a house that's built from glass
I'm casting stones at the feet
A foundation incomplete

Please rescue me
Come rescue me
Come rescue me

Please rescue me
Are you choking once again

Was it worth it in the end
Was it worth it in the end

You are boiling down inside
For the last time

For the last time

You fade away

You fade away

Are you choking once again

Was it worth it in the end

Was it worth it in the end

You are boiling down inside

For the last time

For the last time

You fade away

You fade away
