Born To Be Together

The Ronettes

The moment I saw you,
My heart knew it was forever
You touched me
And I swear I vowed then and there that I'd never
No I'd never want somebody else to hold me
Let another's arms enfold me
Never ever
Want nobody but you

And then you kissed me and whispered tenderly
Darling I love you, I love you, I love you
And I knew we were born to be together
We were born to be together
Baby, we were born to be together

I never said a word, but I know you heard me sighin'
You held me to your heart
And I almost started cryin'
Almost cryin'
Baby, I'm so glad you found me
Keep your lovin' arms around me
Say you want me just the way I want you

And then please kiss me and softly answer me
Darling I love you, I love you, I love you
I know we were born to be together
We were born to be together
Baby, we were born to be together
Baby, we were born to be together
Baby, we were born
To be together
