Reefer Blues

Canned Heat

I get high all day, I feel fine all day
I'm a mellow mother for you, baby, baby, don't you know?
Well I like to smoke my reefer, lord I smoke it
Everywhere I go

Mope around all day, feeling down all day
You gotta do yourself a favor gotta chase all your blues
Away
Well now you gotta smoke your reefer you gotta make a
Change today
Well now you take a little puff well you know that you're
Gonna get high
Well now you take two hits well now you know you're just
As high as the sky
You gotta get a little reefer from your local dealer by
And by

Mope around all day
Feeling down all day
You gotta do yourself a favor gotta chase all your blues
Away
Well now you gotta smoke a reefer you've gotta have a
Change today
Well you take two puffs well you know that you're gonna
Get high
Well now it don't make a difference just as long as
You're as high as the sky
You gotta get a little reefer from your local dealer by
And by
