

Next To Me

Stealers Wheel

Each day you try on a different person
Trying to find out who you really are
Now I think I have a way of knowing
When I'm very close I'm not too far I don't know just when I really found me
At times I wonder why it took so long
Only thing I know is deep inside me
When I'm there it makes me feel so strong Each day you try on a different person
Trying to find out who you really are
Now I think I have a way of knowing
When I'm very close I'm not too far
