

Benge

Well nothing hurts me  
 Like seeing you hurt  
 Or changed me  
 Like the day you went away  
 I know you said I was never there  
 You were always a good friend  
 I don't talk about it  
 I only cry when you don't see  
 Though I walk around it  
 ? I felt I was to blame  
 I never wanted to let you down  
 But I couldn't fake it  
 And if you think it's better now  
 Soon you will see, all the ways  
 Did you walk in circles, hey?  
 Did you hurt a little more that day?  
 I know you said you would never wait  
 But you were always my best friend  
 I don't talk about you  
 I only cry when you don't breathe  
 Though I waltz around you?  
 ? away you fell flat on your face  
 I never wanted to let you down  
 But I couldn't fake it  
 And if you think it's better now  
  
 Soon you will see, all the ways  
 I never wanted to let you down  
 But I couldn't take it  
 And if you think it's better now  
 Soon you will see, all the ways  
 5:00 a.m.  
 And its really early for me  
 I'm tired of replacing  
 Everyone I need  
 I don't talk about you  
 I only cry when you don't breathe  
 Though I waltz around you?  
 I heard your voice today

And you swear I'm not to blame  
I never wanted to let you down  
    But I couldn't fake it  
And if you think it's better now  
Soon you will see, all the ways  
I never wanted to let you down  
    But I couldn't take it  
And if you think it's better now  
Soon you will see, all the ways  
    All the ways  
    All the ways  
    All the ways
