

# Mr. Blackman

## Hopsin

I can't even take a breath without it changing your perspective of me  
You always think that you're a step above me  
My gear is fresh; you think I'm dressing ugly  
Guess it's just the essence of me I can't even take a breath without it changing your perspective of me  
You always think that you're a step above me  
My gear is fresh; you think I'm dressing ugly  
Guess it's just the essence of me I can't even take a breath without it changing your perspective of me  
You always think that you're a step above me  
My gear is fresh; you think I'm dressing ugly  
Guess it's just the essence of me
