

# Light You Up

## Blue October

I'm never gonna give up  
Remember what abuse did  
It's time you look and face it  
As if you were in anyway understood It always lowered me to downsize  
It always lowered my faith  
But it's in the corner rising next to me  
It's in the corner like an upstage I can explain the way I feel inside  
Fuck you  
I'm gonna light you up  
You can admit you're poison  
Go run and hide  
Fuck you  
I'm gonna light you up I said I wouldn't fail you  
It's something sorry couldn't sell you  
A slow rain like a time bomb  
It's disconnected  
Only reach's what I'd done wrong And in no way is it worth  
Losing everything I am including these words  
Your heart in my hands  
I'm sick as all my secrets that's why this hurts  
'Cause they'll put me in the crazy house  
Put me in a crazy farm  
And I'm never going to get back out  
And I'm never going to treat you wrong  
Get down to the earth with the people  
Get down to the earth in your bed  
That's where I'm gonna go  
That's where I'm gonna go up in my mother fucking head. So tell you mom, tell your dad, tell your family  
That I'm beyond this unreasonable sinking ship  
'Cause I never took time  
Never took time  
Never took time  
To learn all about this thing  
We call our relationship I can't explain the way I feel inside  
Fuck you  
I'm gonna light you up  
You can admit you're poison  
Go run and hide  
So fuck you

I'm gonna light you up I can't explain the way I feel inside

Fuck you

I wanna light you up

You can admit that you're poison

Go run and hide

May-be-be-because it's a fuck you

I wanna light you up I wanna light you up.
