

Cursed In Eternity

Mayhem

Advisory - the following lyrics contain explicit language:

My name was written with fire
In the place you only can see
When your time has come
When you walk down in the land of shadows
For eternity The demon flies in the blackened starless skies
And crawls in the bottomless depths of hell
The name which will be a thousand times
Cursed in eternity, yeah The demon flies in the blackened starless skies
And crawls in the bottomless depths of hell
Condemned to wander, until it comes
To the cruelest snake that crawls
