

Carefree

Ginger Rogers

Carefree, why can we not be
Forever you and me, forever me and you
Carefree, I know it's not my fault
I long to be forgiven for whatever it is I've done
Tonight the ocean's at my feet
The stars glitter just like diamonds
I'm here to drown my fears
So I can wake up empty and be
Carefree, I know we're not the same
I'm trapped too long to be free
Carefree, sing another song
And turn the night light on
And watch me fall asleep
Tonight the ocean's at my feet
The stars glitter just like diamonds
I'm here to drown my fears
So I can wake up empty and be
Carefree, why can we not be
Forever you and me, forever me and you
Carefree, let me be carefree
Always be carefree
Let me be carefree
Always be carefree
