Take in the Sunlight (Instrumental)

The Kin

I always had, always chose, to play with fire.
I never tell, until now, my heart's desire.Wade up to the line, and reach up to the other side,
it's me I find.It will never feel the same, as we hold up our hearts tonight,
and it's me I find.I open up, I waste no time, my time has come.
And it seems, not what I know, but what I do, can take me higher (higher).Wade up to the line, and reach up to the other side,
it's me I find.It will never feel the same, as we hold up our hearts tonight,
and it's me I find.One's journey, one's learning, take hunger, get stronger, climb higher, get higher, take in the sunlight.One's journey, is one's learning, take hunger, you get stronger, climb higher, get higher, take in the sunlight.One's journey, one's learning, take hunger, get stronger, you climb higher, you get higher, take in the sunlight.Wade up to the line, and reach up to the other side,
and it's me I find.You'll never feel the same, as we hold up our hearts tonight,
and it's me I find.It's me I find...
