

# Walk Alone

Laura Marling

I think you were wrong  
You said I can't love  
I was put upon this earth  
Not by any God or master  
To know you somehowIn some bar someday  
I would see your face  
I don't believe this shit  
I was doing fine without it  
Now I can't walk alone  
I can't walk aloneI just need a little more time  
I just need a little more highs  
I just need a little something from you  
Baby, I was born to love  
I was born to love  
I was put upon this earth  
I was doing fine without it  
Now I can't walk alone  
I can't walk alone
