

Where Did That Go

Zeds Dead

Not gonna waste time
Wonderin' what you need from me
Told you I made up my mind
It's my choice to make Not gonna lose my mind
Wonderin' if you care for me
Holdin' me back with your eyes
But now that's strange to me Thought there was a time you understood
Saw me in a different light
Saw me in the way I hoped you would
Had faith in me
Remember when you saw my innocence
Taught me how to find my way
Told me that I could be anyone
Believed in me
Where did that go I'm not begging for your love no more
Where did that, where did that go I'm not begging for your love no more
Come say you're missin' me, missin' me Come say you're missin' me, missin' me Back with your eyes
Back with your eyes
Back with your, holdin' me back with your eyes
Your eyes...
Back with your eyes
Where did that, where did that go Mmmm...
I'm not begging for your love no more
Mmmm...
Where did that, where did that go
I'm not begging for your love no more
Mmmm...
Come say you're missin' me, missin' me Remember when you saw my innocence
Taught me how to find my way
Told me that I could be anyone
Believed in me
Where did that go I'm not begging for your love no more
Where did that, where did that go I'm not begging for your love no more
Come say you're missin' me, missin' me
Come say you're missin' me, missin' me Come say you're missin' me, missin' me
