

Get It Up

Sensity World

Bone Thugs-n-harmony

Thug World Order

Get Up & Get It

[Hook (Layzie, Krayzie & 3LW)]

You gotta get up, get out and get something
(Get up, get up, get up, get up, get up and get it)

You gotta get up, get out and get something
(Get up, get up, get up, get up, get up and get it)

You gotta get up, get out and get something
(Get up, get up, get up, get up, get up and get it)

You gotta get up, get up, get up, get up
(Get up, get up, get up, get up, get up and get it)

[In the 4th line of hook]

Get up and get something[Layzie]

It's all about money ain't nobody frontin'

I gotta go get it we gotta survive

Whether it's workin' a nine-to-five

Or ridin' the hustle I gotta get mine, bottom line

Most of my time I'm out here puttin' in work

For all of my days that I run this earth

I'ma make it count for what it's worth

You never know about this life and the type of pain that it can bring
That's why you gotta get off of you're thing cuz it ain't no dream and it
ain't no game

We so serious, dogg you know it don't stop

I know time is the devil's workshop

[Bizzy]

See I do it I did it

And y'all know that I'm wit it

I'll give anything for passin' and take to it back

A hustlin' little brother with crack

But now I grind a little bit harder

Harder my niggaz stories in order

See, it was hard for me momma

My mother dropped in the water

My sister was damn fast, Heather was right behind ya

Cassie, that's my little sister

My father loved you like the only child

Funny, he ain't never seen my smile[Hook][Krayzie]

You betta get on yo grind
You betta go get it if you really tryin' to shine
You betta be keepin' yo eyes on your prize at all times
Keepin' it real for my all of my thugs in the projects
The niggaz that ain't got shit
Not havin' this nonsense my niggaz
My momma said, boy if you ever wanna be anything
Get off the couch and out my house, use your brain
So I took heed and I jumped right up on my feet
Got off the streets and I'll be
In heat I'm laughing at police now[Layzie]
Coming to you like this
This used to be child
Is now a grown man
Don't play with the wrong hand
But I never could quit cuz I'm playin' a strong man
Everybody got a point to prove you might as well start today
Rather than puttin' it off tomorrow
You're lettin' it slip away
Lil' Lay, I parle
And get paid, and that's all
And I creep and I rise
In yo eyes I still ball
And stand tall with my chest
And my cheek to the sky
I'm in it to win it my nigga believe it until the day that I die
So come on[Hook][3LW]
Anything you want, anything you need
You gotta get it, yeah and go get it
Ain't comin' to you, you gotta put in your dues
Show the world that you can do it
Don't let nobody hold you back
So you betta get your hustle on
Baby betta get your hustle on
You betta[Wish]
We some of the livest, you know
True thugs don't really mind to riot, let it go
They sayin' get up and get it
Yes we went and did it
You won't admit it
Cuz you hatin' cuz you can't get it
Every since I was a young thug
Been creepin' showin' mo' love
Even when I got it you best to give it up
It's Cleveland, until we get what we want we ain't leaving

This is what we want with no chumps, please believe it[Hook x2][3LW fading]

3-L-Dub get they hustle on
Gotta get the cheese in the lab
A collabo with Bone
Begging on my knee
Gettin' money till we flooded with ice
Nigga it's freeze
3-L-Dub is goin' coast to coast
We family
3-L-Dub get they hustle on
Gotta get the cheese in the lab
A collabo with Bone
Begging on my knee
Gettin' money till we flooded with ice...
