Loveliest Creature

Savoir Adore

Down by the river, he found me,
I was a little girl, he found me,
The trees were all in blue around us,
Soft leaves were hugging all of me, when they found usStarted slow, cared to love
So that I'd be the only one to know,
What he meant when he said...You are the loveliest creature that I ever did see
Well you are the loveliest creature that I ever did see,
I'll keep you with me
Oh I'll keep you with me
Keep you with me
Keep you with meThe sun was sitting down, beside us
There was no one around, to find us
The water held my feet, beneath me
He put his hand up to my face and he held meTouch your skin, to begin
How we learnt to let each other in
In his way, he would say...You are the loveliest creature that I ever did see
Well you are the loveliest creature that I ever did see,
I'll keep you with me
Oh I'll keep you with meWe came together
Oh we came together
Under the blue
Under the blueWe came together
And we came together
Under the blue
Under the blue,(We came together)
You are the loveliest (we came together) creature that I ever did see,
(Under the blue)
Oh you are the loveliest (under the blue) creature that I ever did see.(We came together)
You are the loveliest (we came together) creature that I ever did see,
(Under the blue)
Oh you are the loveliest (under the blue) creature that I ever did see.
