

# Your Lover

[Faith Evans](#)

Ladies and gentlemen for your audio pleasure  
The incomparable, the unsung one, Faith Evans  
Lately honey I've been dreaming of a night with you  
So maybe baby we could run and hide in each other's arms  
Cause every time we get away there is something special about each day  
I want to stay, baby we ain't gotta rush, so take your time  
Let's just play tonight I want to be your lover; I want to be your lover  
I want to be, I gotta be your lover  
Tender kisses touch my face and hold my body tight  
When you touch me we'll be making love all through the night  
Cause every time we get away  
There's something special about each day  
And I want to stay  
Baby we don't gotta rush  
So take your time, let's just play tonight I want to be your lover  
I want to be, got to be your lover  
I want to be your lover  
We be making love like it's magic  
I get butterflies  
We be making love like it's magic  
I get butterflies I want to be your lover  
I just got to be, I want to be your lover  
Where's the beat, what the,  
There's no more beat no more?  
Chucky has taken the beat gone, it has run away from me
