

# Catching Vibes

## Oddisee

So I'm here now so I count my blessings  
More in store, more corridors that I'll explore  
And all in time, I'll cross their thresh and  
Be better than ever before, to think  
I was stressing over things that by tomorrow I forgot in  
Blink, in a second, switching directions  
I'm on a new wave, try to focus only on progressions  
All in a day's working, working, working on the lessons  
Started feeling better about the answers I was getting in the mirror asking questions  
I am all that I invest in- who else then?  
Put me first, put me latter  
Imma find a way regardless, it's whatever  
I've come so far I think I blossom when I'm battered  
Say what you got to say, it don't matter  
I keep climbing, I keep flying  
Lauryn Hill must be somewhere, man, I see Zion  
I see so much that could change on the horizon  
Let's get vibrant one more time thenI know the world is going crazy, go and take it all in stride  
But today I think I leave it all behind  
I'm trying to catch a vibe, vibe, vibe, vibe, vibe, vibeI got far less control over things than I think I do  
On the other hand, there's a lot of things I could alter and I'm ignoring them  
Situate with moves, procrastinating cause it's hard to face the problem waiting  
For you to finish up having a good time  
In lieu in knowing what I got to do, I got an attitude of molasses crew- slow paced  
And I know what it takes, not sure how much I can give  
You care enough, it'll weigh you down - that's just the way it is  
You try to stay in love but it is hard as bricks  
Please send me a sign, I hope that you notice  
I think we spoke once before when I was at my lowest  
The world is going mad but that ain't for you know it  
But will it last just long enough for me to have my moment?  
I just need some time for me to reach my full potential  
To justify this horrid life and all that I have been through  
I know I'm not the only one, the rest of y'all could vent too  
But right now, just reply to what I sent youI know the world is going crazy, go and take it all in stride  
But today I think I leave it all behind  
I'm trying to catch a vibe, vibe, vibe, vibe, vibe, vibeI think I caught my vibe, I think I found my wave  
You know that I boogie on boards  
You know that I'm putting my foot in the tour every time I step foot on the stage

I belong in a category that only I have made, people easily impressed  
Lower standards got the bottom picking while the cream of crop ain't getting harvest listen  
    Better for you always more expensive  
    Afford the privilege to the few will get it  
    Welcome, welcome to the party mission  
Now that I got your attention, a few things I'd like to mention  
Some y'all won't like all my views and that won't make no difference  
    I must be going crazy, my own thing is my favorite  
    I see who gets the praise and all but I just think they basic  
    Complex on occasion, few and far between  
Might lose me in the middle but the start of it was mean  
    Tired of all this process, your packaging so clean  
    Ingredients so full of names that I can't even read  
    Addictions on the rise, it's my system, I can't lie  
But now I'm on a diet- 100% vibesI know the world is going crazy, go and take it all in stride  
    But today I think I leave it all behind  
    I'm trying to catch a vibe, vibe, vibe, vibe, vibe, vibe
