

# Stevie On the Radio

Pixie Lott

Advisory - the following lyrics contain explicit language:

I'll be there when the train stops  
In that old '64 drop  
In that sundress you like a lot Fresh squeezed lemonade for you on the rocks babe  
'Cause I know it's been a long ride  
I'm sure it's hot in your Levis  
I'll be your breeze in the sunshine  
Make it sweeter than the sprinkles on mama's apple pie And I'll be playing your favourite song yeah  
Screwing up the words 'til you sing along  
When we roll it's pedal down to the floor  
I will ride with you until the wheels fall off Throw your hands in the air  
'Cause we're young we don't care  
Oh don't forget this  
We can be reckless  
Throw your heartache away  
We can live for today  
Baby I'll show you how to roll Throw your hands in the air  
'Cause we're young we don't care  
Oh don't forget this  
We can be reckless  
Feel the sun on my face  
Let's go back to the place  
Where everyone will let it go  
And Stevie's on the radio Highway patrol couldn't stop us  
We'll take a detour around the road block  
Turn a simple ride into a good rush  
There's no way barricades are going to ruin the fun We could be in for a long night  
But when you got shotgun I'm alright  
I feel like a new Bonnie and Clyde  
Get your feet up on the dash and just enjoy the ride And I'll be playing your favourite song yeah  
Screwing up the words 'til you sing along  
When we roll it's pedal down to the floor  
I will ride with you until the wheels fall off Throw your hands in the air

'Cause we're young we don't care  
Oh don't forget this  
We can be reckless  
Throw your heartache away  
We can live for today  
Baby I'll show you how to roll  
Throw your hands in the air  
'Cause we're young we don't care  
Oh don't forget this  
We can be reckless  
Feel the sun on my face  
Let's go back to the place  
Where everyone will let it go  
And Stevie's on the radio  
Throw your hands in the air  
'Cause we're young we don't care  
Oh don't forget this  
We can be reckless  
Throw your heartache away  
We can live for today  
Baby I'll show you how to roll  
Throw your hands in the air  
'Cause we're young we don't care  
Oh don't forget this  
We can be reckless  
Feel the sun on my face  
Let's go back to the place  
Where everyone will let it go  
And Stevie's on the radio
