Crush

Sleigh Bells

With your hair in braids,
Your mother tips the maidBlindfolded nun,
You make the shotgun spray
Make you, or break you
Who you gonna run to now
Make you, or break you
Who you gonna run to now
You think youre classic today,
You must be basic baby
You think youre classic today,
I better check on
Make you, or break you
Who you gonna run to now
Make you, or break you
Who you gonna run to now
I gotta crush on,
I gotta crush you (baby please)
I gotta crush on,
I gotta crush you now (baby please)
And what goes around,
You know it comes around
And if it comes around,
You know the kids are down
Make you, or break you
Who you gonna run to now
Make you, or break you
Who you gonna run to now
With your hair pulled tight,
Youre so essential tonight
You always crush and come,
You make the shotgun spray
Make you, or break you
Who you gonna run to now
Make you, or break you
Who you gonna run to now
I gotta crush on,
I gotta crush you now (baby please)
I gotta crush on,
I gotta crush you now (baby please)you love it baby please

and what goes around you know
it comes around
