

Baby

Silver Griffin

Ooooooooooh, ooooooooooh...Caught on the downside, lost between the weight of lesser men.

So lengthy to realize, you were better off where you began.

Because your body, your body

Is fleeting, is fleeting

The chances, the chances

Depleting, depleting

You're lost in, you're lost in

Your reasons, your reasons

The movement is calling you in.(Chords)You wanna shout it out.

You wanna shout it out

You wanna shout it out and by the sound of it,

Well you wanna come back baby, wanna come back now.

Out and by the sound of it again,

You wanna shout it out.Taken aback love, by the silence hanging overhead.

And still you can't realize, you were better off where you began.

Because your chances, your chances

Depleted, depleted

The silence, the silence

Is heated, is heated

You lost him but found all your reasons, your reasons

The movement is pulling you in.(Chords)You wanna shout it out

You wanna shout it out

You wanna shout it out and by the sound of it,

Well you wanna come back baby, wanna come back now.

Out and by the sound of it again...(Instrumental)You wanna shout it out... Ooh Ooooooh...

You wanna shout it out and by the sound of it,

Well you wanna come back baby, wanna come back now.

Out and by the sound of it,

Well you wanna come back baby, wanna come back now.

Out and by the sound of it,

Well you wanna come back baby, wanna come back now.

Out and by the sound of it again....
