

Down These Roads

Doug Crawford

I ILL drive down these roads come down these roads

Dont stop

I il drive down these drive down these roads drive away drive awayHardest parts Trying to create a Delicate
balance

Doing 10 times the dirt for one step of progress

Sense trouble coming I always loved the challenged

Always elevated the wound before u apply the compress

Bitter endings leaves stitches & lessons to b found

Feeling comfortable in my shoes One of the best around

I See my truth so I can turn the page

Tell Why I gotta to justify the way that how I behave

Today's a days that well both remember

The only real journey is within

Vulnerabilities a liability always hold ur temper

With no other ending in site now it just begins

Loving that i made & becoming what I hated I tried to stay cool

But yet forced my hand

So now my life is dedicated every ninth we celebrated alcohol & medicated

Moving ahead on course as plannedCHORUSI ILL drive down these roads come down these roads, down these
roads

Dont stop

I il drive down these drive down these roads drive away drive awayIn a few years this will feel like nothing but
a bad dream

Nightmare to those that I'd never amount to anything

Hated by most labeled as a waste of skin

Only when u taste defeat do u know what it takes to win

Safe to say I Wasted away to many days to sin

So I'd b Lieing if I said I'd never make mistakes again

Stil driving down these roads ain't found my destination

Me & music Still stuck in a love and hate relationship

Been patiently waiting so long in starvation

Turned built up frustration to piles of money

It's No longer temptation just addicted sensation

& I dare any one of u fuckers to try take it from me

Do & ull be leaving in pine box

Don't worry bout them I am the one ur who knocks

I just came to the realization

I'm the only 2 give myself any LimitationCHORUSI ILL drive down these roads come down these roads

Dont stop

I il drive down these drive down these roads drive away drive away
