In My Land

Acrania

And in my land I am respected
You are the one who feels the fear
No bullshit will be accepted
Police state get the fuck out of here!With history on our side
The past can not be erased
We won't leave anybody behind
Because all these people come with meIt's alright that we've reached the limit
Now's the time to rise again
Against the silence, all our voices
There's no reason to be afraid
One man falls but one man rises
And resistance is still there
Overthrow the system that enriches
At the expense of blood and pain
It's all right
Don't thread on meAnd it's the system's collapse
And it's the system's collapse
I don't want to live with chains
Just feed my pain
Don't forgive and don't forget
I will take you now to know my hellAnd when the people decide
No one will denyAnd then sundown comes
We see in the sky our people's blood
And when music goes on
We hear the cry of those who passed before
It's when children smile, it's the beach, it's the flag
Those fireflies in the dark
It's the sounds, it's the last drink of the night
And it's the system's collapse
And it's the system's collapse
I don't want to live with chains
Just feed my pain
Don't forgive and don't forget
I will take you now to know my hellAnd it's the system's collapse
And it's the system's collapse
I don't want to live with chains
Just feed my pain
Don't forgive and don't forget
I will take you now to know my hellAnd when the people decide

No one will deny
