

Alone This Holiday

The Used

Maybe light a candle
Don't say a prayer for me
Feel alone 'cause I'm gone, I left you
Make Christmas your own
Just throw the thought of us away
You'll be alone this holiday
Said, it's cold in this town
And there's snow on the ground
Far from home, not alone, I left you with nothing
And that's what you own
Yes, throw the thought of us away
You'll be alone this holiday
Maybe light a candle
Don't say a prayer for me
Feel alone, I left you at the best time
Now make Christmas your own
Yeah, throw the thought of us away
You'll be alone this holiday
You'll be alone this holiday
You'll be alone this holiday
You'll be alone this holiday
