Killer Eyes

Violet Indiana

Cold and bare with your naked stare
Oh, but no one knows, why you take them there
'Cause you're full of charm and so full of harm
As you carry me to where you'll bury meIn your killer eyes
Chilling through me
Your killer eyes
Keep staring through meTangled in this unhealthy feeling
As I magnetize, I feel hypnotized
Got to get away but you know I'll stay
As you hold me close till I almost chokeIn your killer eyes
Chilling through me
Those killer eyes
Staring through meThose killer eyes
Are tearing through me
The love deep inside me
I know it can hide meThose killer eyes
Keep staring through me
Those killer eyes
Feel [Incomprehensible]I don't know what they do to me
Ah, killer eyes
You don't know what they do to meIn your killer eyes
Chilling through me
Those killer eyes
Staring through meThose killer eyes
Are tearing through me
The love deep inside me
Know it can hide meThose killer eyes
Keep staring through me
Those killer eyes
Feel [Incomprehensible]You don't know
In your killer eyes
Staring through meThose killer eyes
Staring through me
The love deep inside me
I know it can hide meThose killer eyes
Keep staring through me
Those killer eyes
