

# Is This What You Call Love?

Frankie J

You've seen him many times,  
There's no use denying,  
I've heard you on the phone

I've even followed you to all the places were you've secretly have been alone

I even know about the times when you would say to me that you was overwhelmed with work,  
You had to stay longer working overtime,  
But you were always lying,  
Baby I might be dumb but I am not blind

At times I feel like I want to break down inside

I got to find a way out 'cause this is tearing me to pieces, I just want to make it right

Is this what you call love explain to me baby, Is this really what you want from me  
(Is this what you want from me)

I'am losing my patience, just hear what I'am saying You don't want to break the family  
(Don't break this family)

Is this what you call love  
Then you got it all wrong  
This isn't the way our lives should be  
I just won't allow somebody to become between us

Is this what you call love  
Is this what you call love

You come home late at night,  
Pretending it's alright, acting like you're doing nothing wrong, As you lay down right  
Beside me, inside I'am dying

You just don't understand the pain that you have put me through (just don't understand)

After all the thing I have ever done for you, sometimes I rather be alone  
Than have a broken home

Whatever happened to forever, 'cause I still want to know, explain to me you change of heart

Is this what you call love
