Stop To Think

Unwritten Law

I've got this feelin' and I know that something just ain't right
There's something wrong with me
Can't eat, cn't think, can't sleep at night, well
Maybe the empire's falling down
I hope that I won't be around
Stop to think
Stop to think
Stop to think, yeah, yeah
I've tried to fight, I think I'm right but who the fuck's to say
I've heard your views on the evening news
They're played out every fucking day, well
I think the end is coming down
I hope that I won't be around

Stop to think
Stop to think
Stop to think
Stop to think
Stop to think
Stop to think
I stop to think that maybe everything's alright
And maybe that's a waste of time
Be all that you can be, there's nothing left to see
Well now that's not good enough for me
Stop to think
Stop to think
Stop to think
