

Lend Me Some Light

Empire of the Sun

Time has come to cross the lonely
Fuck with the gullet globes
My dust made of gold
We're spread across the world
Come on, come on
Time has come to show the lonely
Fuck with the good
And dust made out of gold
We're spread across with joy
Come on! Lend me some light, 'cause I'm totally warm now
Lend me some light, 'cause I'm totally warm now
Lend me some light, 'cause I'm totally warm now We move against the galaxy [?]
Laser [?]
Like a string of [pellets?]
Took us all in one
Come to me to get a piece of gree with the flash
Dust made out of gold
[Leader?] [?] away
[?] Lend me some light, 'cause I'm totally warm now
Lend me some light, 'cause I'm totally warm now
Lend me some light, 'cause I'm totally warm now
Lend me some light, 'cause I'm totally warm now
