

I Like It

The E Family

Im hittin the boulevard my girl on the side and that's the way i like it
I'm tryin get the spot on the Sunday night
And that's the way i like it
No matter where we go girl we just gonna ride
So don't try to fight it
So cut off the phone pump that song
Let's get it on 'cause that's the way i like it

Chorus:

kick back Cadillac pop it in that old 8 track
just me the road and the sky
Drop the top recline
sit back and ride, sit back and ride
You know that's how i like it , like it, like it
I like it, i like it

Blue skies, sunrise
Enjoy life or it'll pass you by
I got my raggedy jeans on my drink on he side .. and that's the way i like it
stayin true to the game is the only way to claim
and that's the way i like it
i got to drop that top ain't nobody gonna stop me
i ain't try to hide it
gonna do my thing
hang with the game i think i tell you why
'cause that's the way i like it

[Chorus:]

I get you there's a trunk full of my... baby boy that was time to ride
Lay back close your eyes and watch me try
Touch the sky, we just gonna glide
Aint' no rush so luxury it don't matter if they pass my bus
I'm on my watch to show so i'ma .. i'ma roll of a ..
Plus got a pocket full of in god we trust
We gonna shop when we get there
As long as there's sun there we're swim wear
Well whatever it is we in the magazine
people sayin that's how we supposed to live
so im Supposed to give

Get away from my crib livin my life kids
We're ridin roll like the car was stolen
We both from the block so that's the show bone
It took it so good that was hard to stay focused
