

Paper Dolls

Marcy Playground

Who's the captain of the ship
I think it's sinking
I know I don't know what I know
I don't know what was I thinking Paper dolls before the folding
Schools like malls that all are closing
Afraid to dance don't talk to strangers
Avoid romance read what the sign says
'Parental guidance is advised'
Another teenager surprised Blah, blah, blah, blah
Feels so good to be alive
Blah, blah, blah
Yeah, life was easier at five Blah, blah, blah
Feels so good to be alive
Blah, blah, blah
Yeah, life was easier at five
What was I thinking? I can't make up my mind
Can't even make up my bed
Yeah, I should clean up my act
But first I clean up my head My books are on the shelf
I don't apply myself
You always check up on me
But check yourself, oh Paper dolls before the folding
Schools like malls that all are closing
Afraid to dance don't talk to strangers
Avoid romance read what the sign says
'Parental guidance is advised'
Another one us survives Blah, blah, blah, blah
Feels so good to be alive
Blah, blah, blah
Yeah, life was easier at five Blah, blah, blah
Feels so good to be alive
Blah, blah, blah
Yeah, life was easier at five It was bad as it is in my school
Oh, as bad as it is
Still my school At five
What was I thinking?
At five
What was I thinking?
