## DIRTY ARTICHOKES

All of my friends said that I should just wait a little

    All of my friends said that you weren't the one

And to that i replied, just worry bout your own life because I knew that you were my love

    I met you on a sunday

    And we got married on that monday

    And now lifes looking so good

        Its looking soooo good

        And i wanted you to like me

        But now you just surprise me

    And now lifes looking so good

        Its looking soooo goooooood

I'm so glad that i found you(3x's)

    In the silliest of ways

    And i wanted you to like me

    And now you just surprise me

    I'm so glad that i found youuu

        So glad that i found you

    Oh
