

Non Populus

Matthew Good

It says

Let it be unto you

It all say

Let it be unto you

Mistake of the heart

Let it be unto you

Gonna rip you apart

Let it be unto you

Let it be unto you

You escape

Let it be done to you

What you take away

Let it be done to you

For what you would war

Let it be done to you

What you ignore

Let it be done to you

Let it be done to you

Mother loved you the wrong way

But thats all over now

You know he could have stayed

Instead of crawling out into the wilderness

Hurled lightning down from the buildings

Done something different

Done something different
