

# The Effect

## Flobots

It's the F-L-O-B-O-T-S  
What did you expect?  
You wanted us to move you right to left  
Live and direct  
It's like  
1, 2, 3, 4  
Butterfly wing flap, whole thing change  
One look, two different books, same page  
Front on the range but the beat's contage  
Stuck to your feet for 3, 4 days  
It's real, too real like film projectors  
Bend the letters to find the nectar  
It is effective, it will protect ya  
From them specters, don't let 'em get ya  
How did they escape the rat race?  
How'd he make that sound with that bass?  
The roof is ablaze so break the glass case  
Song so big, affect the tax base  
Don't drink the potion, split the ocean  
Holy Moses, Pharaoh's forces  
Let my people go with purpose  
Turn the tide with forward motion  
How does it feel to un-glue?  
Where do you think we've come to?  
What does it take to follow through?  
Who is it making you move?  
Heavens to Murgatroyd  
The situation's purgatory  
Brer Rabbit stories, burn categories  
The allegory is Adam's story  
On the eve of something glorious  
Us against them won't bust the system  
But trust the pistons, the engine's mis-spent  
Our thrust is intense, combustive intent  
Boom Jonny 5 better yet Juan Cinco  
Rhetoric rep for my Colorado lingo  
Whatever preterit's wet by my ink flow  
Is spelled out B4  
Get it?, because I never get outwitted

Bold-faced type, all capped like a fitted  
We'll make you move even if you're arthritic  
Something you thought I wouldn't do, I did it  
How does it feel to un-glue?  
Where do you think we've come to?  
What does it take to follow through?  
Who is it making you move?  
It's the F-L-O-B-B-B-O-T-S  
What did you, what did, did you expect?  
You wanted us to move you, move you right to left  
Live and direct, you ride the effect  
La, la, la, la, la, la, la, la  
La, la, la, la, la  
It's a quilombo with Kenny O on the drum roll  
We rocket like Dikembe Mutombo  
Djembe to bongo to MPC  
We unload and win MVP  
So let's be old fashioned, put the beat on blast  
And leave a lil' something like a geocache  
And if anybody wanna smurf with me  
We can take this to the nursery  
Like hickory dickory, rhyme so slippery  
This emcee, that emcee, wish they could switch currencies  
Like a battery, disbelieve flattery  
Realistically, it can just be a smattering  
To sit and watch the needle peak with Mario C  
Reppin' CO and 303  
(Speak up, girl)  
Even if it's what's they're against  
Do the Helen Keller and confront male arrogance  
How does it feel to un-glue?  
Where do you think we've come to?  
What does it take to follow through?  
Who is it making you move?  
It's the F-L-O-B-B-B-O-T-S  
What did you, what did, did you expect?  
You wanted us to move you, move you right to left  
Live and direct, you ride the effect  
La, la, la, la, la, la, la, la  
La, la, la, la, la  
La, la, la, la, la, la, la, la  
La, la, la, la, la  
La, la, la, la, la, la, la, la  
La, la, la, la, la  
La, la, la, la, la, la, la, la

La

It's the F-L-O-B-B-B-O-T-S

What did you, what did, did you expect?

You wanted us to move you, move you right to left

Live and direct, you ride the effect
